

Project Exploration Geologist

 **Location:** True North Mine, Bissett, Manitoba (Camp-Based)

Job Type: Full-Time, Permanent

 **Company:** 1911 Gold Corporation

 **Schedule:** 14 days on / 14 days off rotation

 **Work Location Note:** This position is based at the True North Mine site. Camp accommodations and meals are provided during scheduled work rotations. Travel to and from site is covered in accordance with the Company's travel policy.

Position Overview

1911 Gold Corporation is seeking a Project Geologist to support exploration activities at the True North Project in Bissett, Manitoba.

Reporting to the Company's Exploration Manager, the Project Geologist will play a key role in overseeing exploration drilling programs, supervising geological activities, and supporting the development of the geology team.

This position is integral to advancing exploration efforts and supporting the continued growth and development of the True North Project. The successful candidate will contribute to high-quality geological data collection, interpretation, and reporting, while maintaining a strong commitment to safety and operational excellence.

Key Responsibilities

Exploration & Drilling Oversight

- Supervise surface and underground drilling activities
- Oversee core logging and sampling processes to ensure accuracy and consistency
- Ensure drilling programs are executed safely and efficiently

Geological Data & Reporting

- Prepare and provide progress reports on geological activities
- Support geological interpretation and data analysis
- Contribute to geological modeling and exploration targeting

Team Leadership & Development

- Provide day-to-day supervision of geology team personnel
- Support training and development of junior geologists and technicians
- Foster a collaborative and high-performing team environment

Survey, Mapping & Technical Work

The Project Geologist will work with geological tools and software, including:

- Leapfrog geological modelling software
- MX Deposit database systems
- QGIS mapping tools
- Geochemical and geophysical data interpretation systems

Qualifications

Education

- Bachelor's degree in Geology

Experience

- Minimum 5+ years of relevant experience
- Previous experience working on exploration drilling programs

Professional Designation

- Professional registration or eligibility in the Province of Manitoba

Knowledge, Skills & Abilities

- Strong understanding of geological and mineralization systems
- Experience in geologic mapping, geochemical and geophysical surveys
- Experience with data interpretation and geological modeling
- Experience in oriented core logging
- Strong leadership and supervisory experience within a geology team
- Proficiency with Leapfrog, MX Deposit, and QGIS software
- Strong verbal and written communication skills
- Excellent interpersonal and team collaboration abilities
- Strong time management and organizational skills
- Ability to work independently in a remote mining environment
- Preference will be given to candidates with experience in orogenic gold deposits and structural geology

- Additional education or training in management or supervision is considered an asset
- Preference will be given to candidates from the Province of Manitoba

Physical Requirements & Working Conditions

- Ability to work 12-hour shifts on a 14/14 rotation
- Comfortable working in both surface and underground environments
- Ability to work safely in a remote mining environment
- Commitment to maintaining a strong safety culture

Perks & Benefits

Work-Life Balance

- 14 days on / 14 days off rotation
- Camp accommodations and meals provided

Competitive Compensation

- Salary commensurate with experience
- Vacation and benefits package

Career Development

- Opportunity to contribute to exploration and growth at the True North Project
- Work alongside an experienced and technical exploration team

Teamwork, Culture & Growth Mindset

- Contribute to a respectful, collaborative, and safety-focused work environment
- Demonstrate a strong commitment to operational excellence
- Work effectively with cross-functional teams including Exploration, Engineering, and Operations
- Adapt to evolving project priorities while maintaining accuracy and professionalism

Equity, Diversity & Inclusion

1911 Gold Corporation is committed to fostering an inclusive, respectful, and diverse workplace. Accommodations are available upon request throughout the recruitment process.
